DETAILED ACTION

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the black silhouette of the structural members obscures the details of the specified features. Furthermore, the following numerical indicators were described in the specification but are missing in the Figures: 15b, 17a-17d, 40-42, 43a, 43b, 46, 47, 50-52. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-6 are allowed.

Prior Art Cited of Interest

A Notice of Cited References is enclosed which lists the closest prior art considered relevant to the invention.
